

St. Wilfrid's Catholic Primary School

Vision for Music

"There's music in every child. The teacher's job is to find it and nurture it."

Frances Clark

The music curriculum at St Wilfrid's Catholic Primary School is one of enjoyment, repetition and practice following the National Curriculum using the Charanga music scheme, whole class and small group instrumental teaching and an understanding of music throughout time.

In recognition of the starting points of many of our children, our music curriculum provides a breadth of exciting, purposeful learning experiences to ensure a rapid development of knowledge, skills, independence and confidence. We strive to follow our school's Christian values ensuring these are a focus throughout the children's musical learning. The aim is for our children to enjoy music and develop the necessary skills and experience in musical history, listening, appraising, composition and performance, both singing and playing instruments.

We are committed to link music to all subject areas to provide access for all children to achieve in every subject.
